Bhimavaram, Andhra Pradesh - 534201, India

Summary

A **highly motivated** and **curious learner** with a passion for **innovation**, **problem-solving**, and building impactful technology solutions. Experienced in working on projects involving **machine learning**, **web development**, and **data analysis**. Capable of translating ideas into practical implementations with **creativity** and **precision**.

Actively looking for opportunities to gain hands-on experience in real-world **software development** environments, collaborate with professionals, and contribute to meaningful projects. Known for **adaptability**, **teamwork**, and a strong drive toward continuous learning and growth in the tech space.

Education

- **B.Tech in Artificial Intelligence and Machine Learning**
SRKR Engineering College, Bhimavaram **CGPA: 8.56**
- **Intermediate**
Sasi English Medium College, Velivennu **Percentage: 94.5%**
- **SSC**
Sasi English Medium School, Kanuru **Percentage: 100%**

Projects

- **Product Demand Prediction using Machine Learning**
Built a machine learning model to forecast product demand using historical data and regression techniques. Integrated preprocessing, feature engineering, and performance tuning for improved accuracy.
- **Language Learning Flashcards App**
Developed a flashcard-based web application to assist users in learning new vocabulary across multiple languages. Implemented spaced repetition algorithms, user-level tracking, and an interactive user interface.

Technical Skills

- **Programming Languages:** Python, C, Java, Data Structures (Python), SQL, DBMS
- **Web Development:** HTML, CSS, Bootstrap, React.js, MongoDB
- **Tools & Technologies:** MS Excel, GitHub, Git, Canva
- **Additional Skills:** Architecture Diagrams, AWS Pricing Calculator, Technical Communication

Certifications

- **Career Essentials in Generative AI** (Microsoft and LinkedIn)
- **Microsoft Copilot for Productivity** (Microsoft and LinkedIn)
- **Career Essentials in Administrative Assistance** (Microsoft and LinkedIn)
- **Career Essentials in Software Development** (Microsoft and LinkedIn)
- **Introduction to Cybersecurity** (Cisco)
- **Career Edge— TCS iON** (Tata)
- **Data Visualization Virtual Experience** (Tata and Forage)
- **AWS APAC Solutions Architecture Virtual Experience** (AWS)
- **JPMorgan Chase & Co Software Engineering** (JPMorgan)

Extracurricular Activities

- **Interests:** Drawing, Shuttle, Chess.
- **Active Member of the Coding Club, AICTE IDEALAB, Swecha, Association of Computer Science**

- **AWS APAC Solutions Architecture Virtual Experience Program on Forage**– April 2025– Designed a simple and scalable hosting architecture using Elastic Beanstalk for a client facing growth-related performance issues.– Created an architecture diagram to visually communicate infrastructure components and deployment flow.– Estimated cloud costs using the AWS Pricing Calculator and aligned resources with business needs.– Wrote a non-technical summary explaining how the solution works and how costs are structured to support client understanding.
- **Tata Data Visualization: Empowering Business with Effective Insights Job Simulation on Forage** April 2025– Completed a simulation involving creating data visualizations for Tata Consultancy Services.– Prepared questions for a meeting with client senior leadership.– Created visuals for data analysis to help executives with effective decision making.
